### **REASONS FOR ALLOWANCE**

The following is an examiner's statement of reasons for allowance: claim 1 - 40 are allowed. The prior art of record failed to teach a differential phase detection device detecting a differential phase signal from first through fourth signals, the differential phase detection device comprising: a slicer slicing and digitizing each of the first through fourth signals with respect to a reference level, a first synthesizer synthesizing the first digitized signal and the third digitized signal to generate a first synthesized signal, a second synthesizer synthesizing the second digitized signal and the fourth digitized signal to generate a second synthesized signal, a phase difference detector comparing a phase of the first synthesis signal with a phase of the second synthesis signal to generate a first phase difference signal and a second phase difference signal and a matrix circuit determining a difference between the first and second phase difference signals from the phase difference detector to output the differential phase signal.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
